

Hospital in the Home

GP referrals

Does your patient need inpatient level care but would be better cared for in the home? You can help your patient avoid a visit to the Emergency Department.

The Sir Charles Gairdner Hospital in the Home (HITH) program is now accepting direct referrals from general practitioners for patients living in the catchment.

Inclusion criteria:

- Patient is aged over 16 years
- Patient resides in the catchment (see suburb list below)
- Patient and/or their carer consents to treatment occurring in the home
- Patient's place of residence is assessed as safe for the provision of care (see home assessment checklist below)
- Patient has one of the following diagnoses:
 - » Severe hypertension without symptoms or focal neurological signs
 - » Congestive cardiac failure requiring IV frusemide
 - » Cellulitis requiring IV antibiotics
 - » Urinary tract infection requiring IV antibiotics
- (Other diagnoses may be accepted at the discretion of the HITH consultant.)
- HITH consultant accepts governance of the patient.

Exclusion criteria:

- Vital signs outside normal limits, except for:
 - » Fever if there is a clearly treatable source of infection
 - » Isolated high BP
- Uncertain diagnosis
- Initial resuscitation in the ED required
- Continuous 24-hour assessment, treatment or observation required
- Patient does not have a Medicare card.

To make a referral:

- Call the HITH consultant to discuss the referral on 0484 714 775.
- Referrals accepted Monday to Friday, 8.30am to 4.30pm.
- The patient will need to attend the HITH Centre (ground floor, C block, Sir Charles Gairdner Hospital) for initial assessment and management.
- Please provide a written referral and health summary to your patient to bring with them.
